Freedom from Addiction Starts Here

Adult & Teen Challenge of Texas

Recovery Programs

Who We Are

Adult & Teen Challenge of Texas provides residential, Christian faith-based recovery programs for men, women, and teens across Texas.

What Makes Us Different

Transformation- Not Treatment

Our focus on Christ, or the "Jesus Factor", separates us from traditional recovery centers. A restored relationship with God can transform those who suffer from addiction into vibrant, free, and sober followers of the Lord.

Discipleship and Evangelism

Our curriculum and community are based on God's Word—the Bible. Our practical Bible-based courses help the transition from substance abuse to a life of freedom in Christ. We introduce students to God's love, initiate the discipleship process, and train them to demonstrate God's love to others.

Long-Term Residential Program

Our programs last between 12-18 months. This timeframe provides opportunity for adults and teens to confront their destructive choices, self-sabotaging behavior, and unhealthy views and replace them with the truth found in God's Word.

A Holistic Approach

Addiction attempts to fill a void that only God can satisfy, and damages more than just the body. Our holistic approach heals all aspects of our students' lives. By applying biblical principles, students become mentally sound, emotionally balanced, physically well, and spiritually alive.

Aftercare Opportunities

•Internship Program
Provides training to individuals who wish to pursue vocational ministry

•Re-Entry Program
Graduates are able to live on campus for up to a year, continuing to work in the local community

•Non-Residential Support Groups
Lifeline Groups offer caring relationships, curriculum driven classes, and accountability for:
—families of those with life controlling issues
—those who are reasonably functional despite their addiction
—those who have completed a long-term recovery program and are looking for additional support

Programs for Teens

Our State licensed adolescent programs provide residential care to boys and girls who are struggling with self-destructive behaviors or attitudes. Students focus on academics while participating in a program designed to help them transition successfully into adulthood.
